### **Reasons For Allowance**

1. The following is an examiner's statement of reasons for allowance:
2. The primary reasons for allowance of claims 12, 25 and 42 is the inclusion of the limitations concerning "causing a browser to send a second cookie to the intermediate server, wherein the second cookie includes the set of creation details for the first cookie" (as from claim 12) in a method and system for mediating a web page at an intermediate server. While it is typical in the prior art for a cookie to be sent from a browser to a server (as noted by applicants on page 13 of the remarks mailed 9/09/04), the prior art does not teach or suggest that the cookie should contain the creation details of a first cookie as claimed in the method and system for mediating a web page at an intermediate server.
3. The primary reason for allowance of claim 41 is the inclusion of the limitation concerning "distinguishing the resource request from a new web page request based on the resource marking" in a method of mediating a webpage at an intermediate server. While the prior art may suggest the marking of resources of a webpage (See Col. 16 line 66 - Col. 17 line 11 of the Farber reference cited in previous office actions), the prior art does not teach or suggest distinguishing a resource request from a new web page request based on a resource marking as claimed in the method of mediating a webpage at an intermediate server.
4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
